Introduction

Hello Everyone!!

First of all, I want to thank you for buying this book. I really appreciate your support!

I decided to put together three bass play-along books:
One for basic level tunes, which is the one you are currently reading, one at the intermediate level, and another for advanced level tunes.

My goal for this particular book was not only to compose fun to play songs while keeping the bass part fairly simple, but also to offer a variety of styles. I personally am happy with the result and enjoyed jamming along with these tunes. I think you will too!

Anyways, I hope that this song book will help you to apply your current bassplaying skills in more performance-oriented settings.

Bernhard
