# SINGLE PARADIDDLES

There are four “pure” single paradiddles, where the diddles are placed in different positions. Perhaps FORM A, with the diddles at the end, is the one most commonly thought of as *the* single paradiddle, but the other forms B, C, and D are equally important.

## DOUBLE PARADIDDLES

There are six “pure” double paradiddles where the diddles are placed in different positions. FORM A, with the diddles at the end is the one most commonly thought of as *the* double paradiddle, and it is the only form that is notated around the drums.

**C** = 

**D** = 

**E** = 

**F** = 

Note: Be sure to use the sixteenth triplet rhythm as well.
